

I'd like to try and resolve by--with the cooperation, the full cooperation, I might say, of the cointroducers. The problem is that the county and city want to cooperate in paving a road. The boundary lines were set long ago directly down the center of the road. Now we need authority so that county funds can be used to pave the city half. We have solved that problem for boundary lines that are set last year or in the future and the boundary lines can no longer be set down the center of the road, but for those conditions that are already existed there is a problem. So what this would enable us to do is to permit the county to spend its funds on the city half of that road and that's the entire purpose of the amendment. I'd ask for your cooperation in adding this amendment to this bill. Later on I will add the severability clause. I move for the adoption of the amendment.

PRESIDENT: Is there any further discussion? The question is the adoption of Senator Bereuter's amendment to LB 643. Record your vote. Make the record.

CLERK: 28 ayes, 0 nays on the adoption of Senator Bereuter's amendment. Mr. President, Senator Bereuter now moves to add the emergency clause to LB 643.

SENATOR BEREUTER: Mr. President, I move for the adoption of the emergency clause.

PRESIDENT: You've heard the motion. Record your vote. Please vote. Record.

CLERK: 26 ayes, 0 nays to adopt the emergency clause. Mr. President, finally Senator Bereuter moves to add the severability clause to LB 643.

SENATOR BEREUTER: Mr. President, in order to be doubly safe I am proposing that we add the severability clause and I move for that amendment.

PRESIDENT: Record your vote. Please vote. Record.

CLERK: 26 ayes, 0 nays to adopt the severability clause, Mr. President.

PRESIDENT: It's adopted.

CLERK: I have nothing further on the bill.

PRESIDENT: Senator Kahle.

SENATOR KAHLE: Mr. President, members of the body, I move that we advance 643. 643 was a bill that was brought to me by my own county board. They found a problem in the statutes that said that the county board could only use or appropriate \$25 into emergency funds or petty cash funds within the offices of the county. In the problem that we had this is not enough money to have in the petty cash fund and the auditors were complaining because they were withdrawing more than the \$25 so we brought it before the Legislature and the committee and there were no dissenting votes. The only thing that was put on the bill since it started was that it has to be in the county budget, the amount of money they are going to use each year in these petty cash funds, so I think this solves the problem and I urge you to support the bill.
